STUDENT ACADEMIC PORTAL

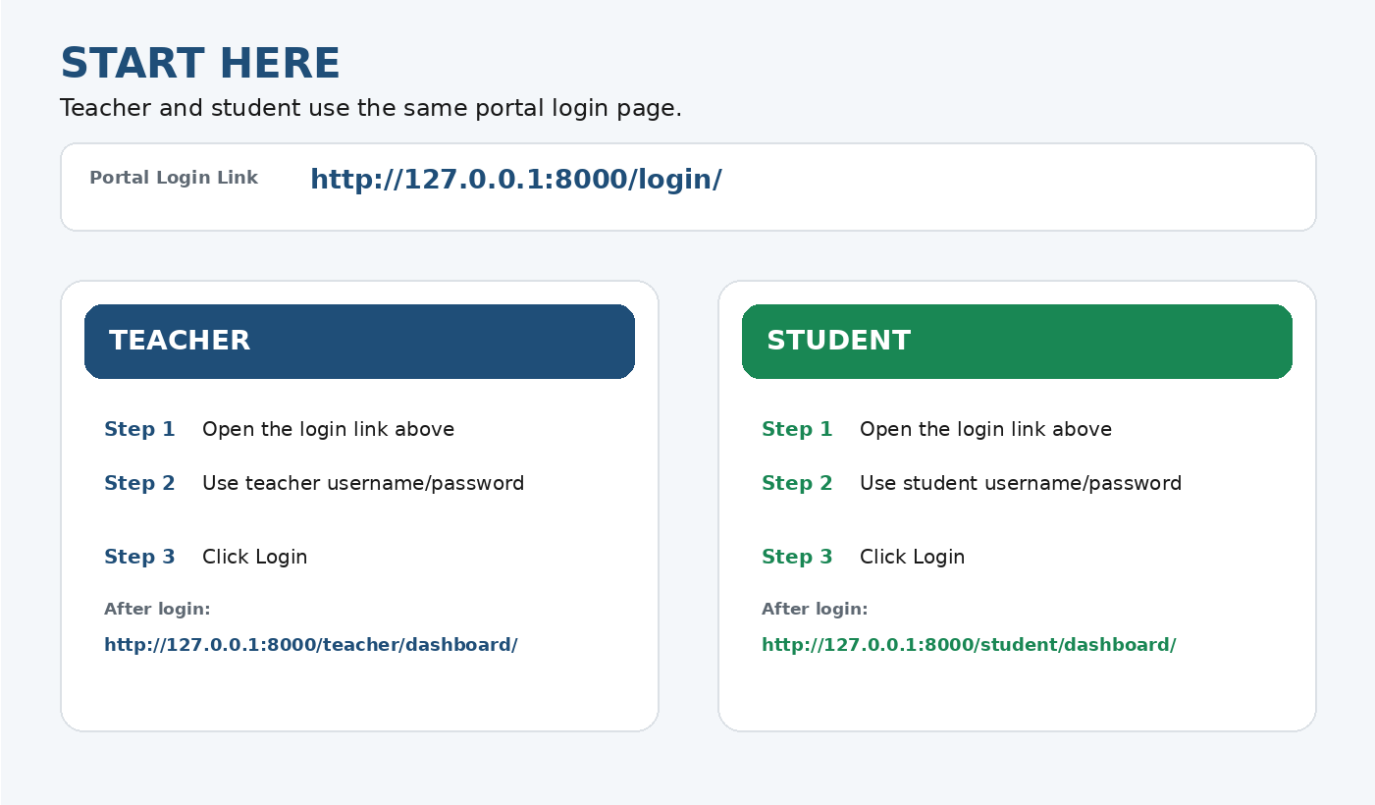

Visual Step-by-Step User Manual

For Teachers, Students and Administrators

How to use this manual: Follow the numbered steps in order. The large pictures show exactly what each user should look for on screen.

1. Start Here - Teacher or Student

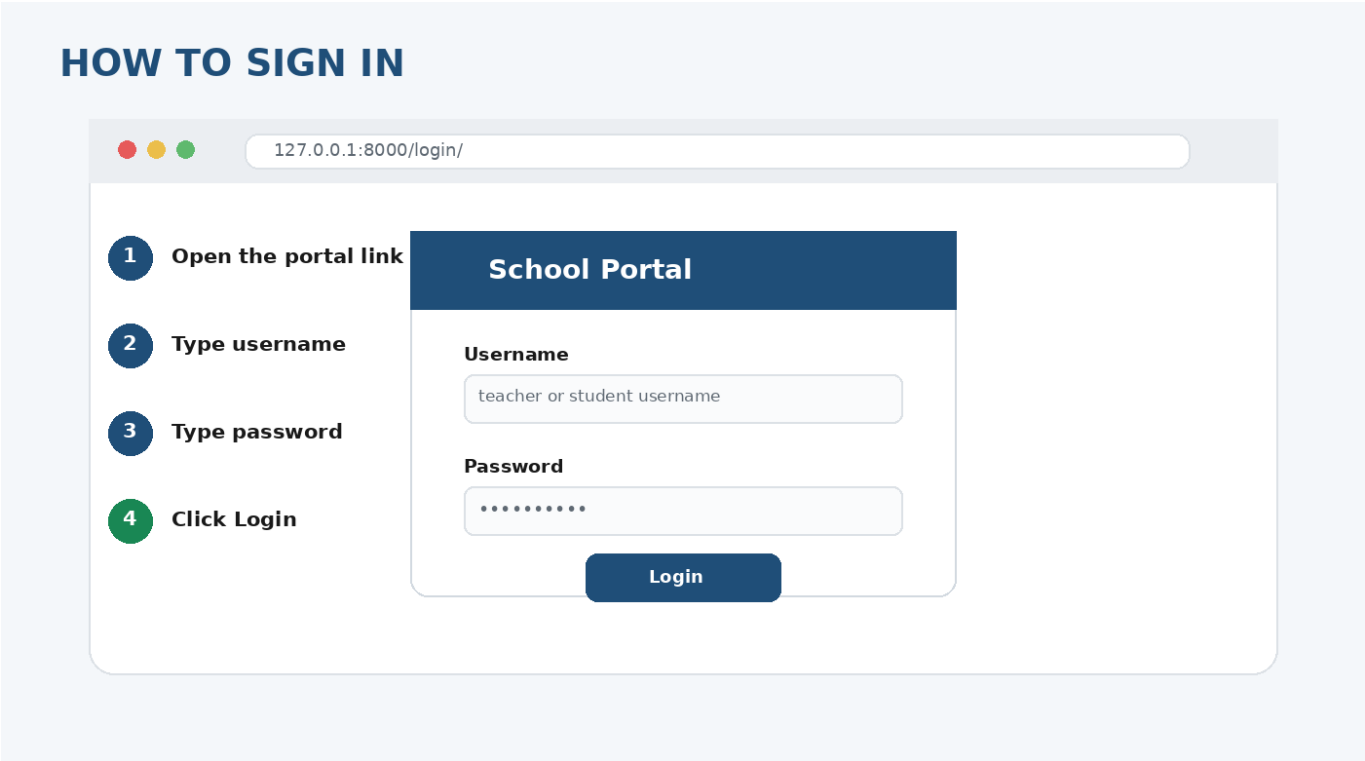

Both teachers and students begin at the same portal login page. The account role determines which dashboard opens after login.

Visual 1 - The correct starting link and the dashboard destination for each role.

Main portal link: http://127.0.0.1:8000/login/ (local development address). On a live school server, replace this with the school's published portal address.

2. Login - Follow These Four Steps

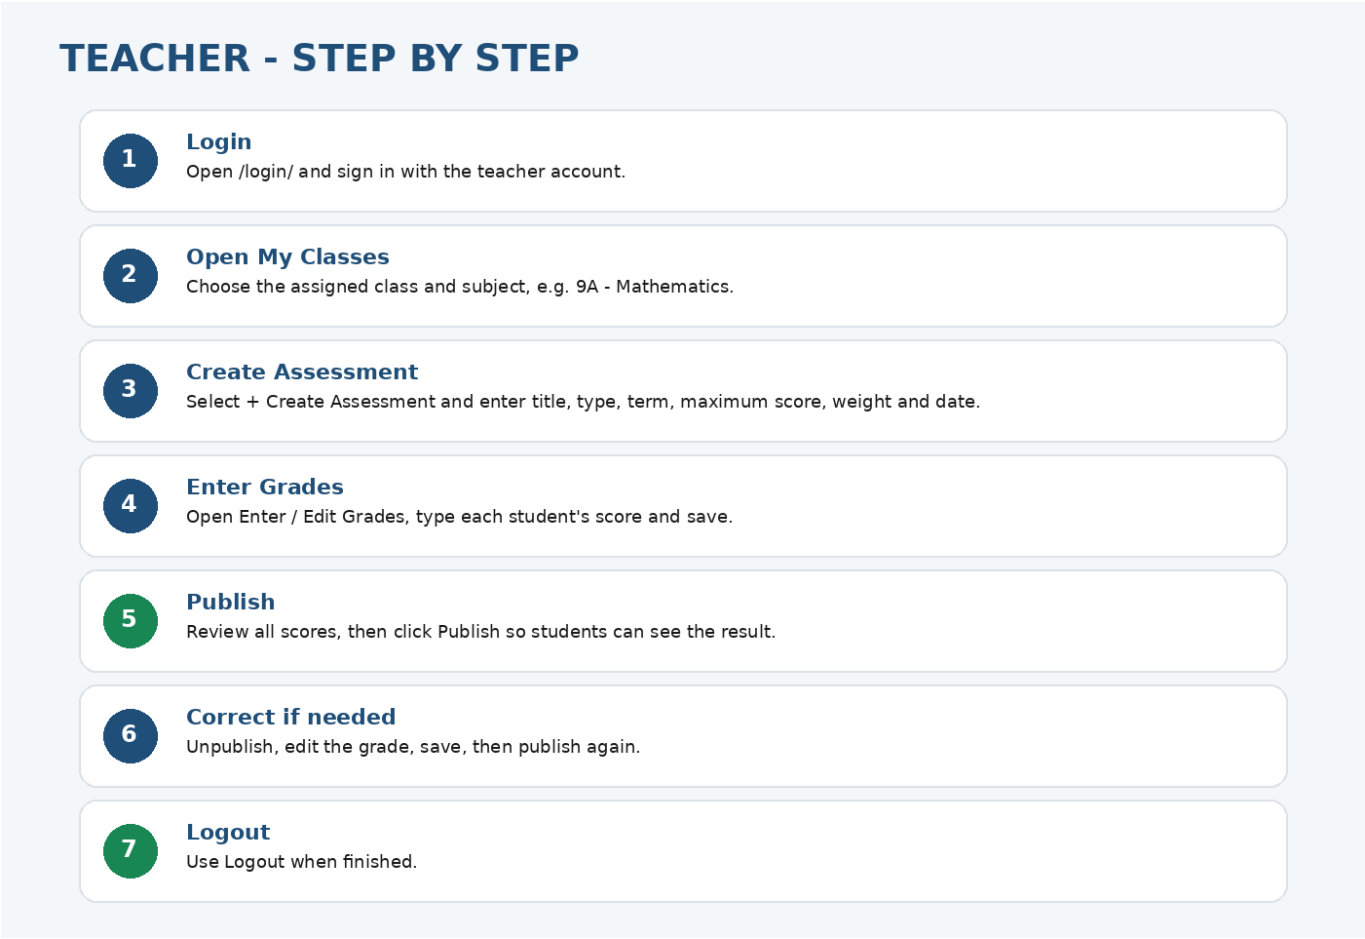

Visual 2 - Login process.

1	**Open the login page** Teacher and student both open the portal login link.
2	**Enter username** Use the username assigned to your own account.
3	**Enter password** Type the account password. Passwords should never be shared.
4	**Click Login** The portal automatically sends a teacher to the Teacher Dashboard and a student to the Student Dashboard.

Teacher direct page: http://127.0.0.1:8000/teacher/dashboard/

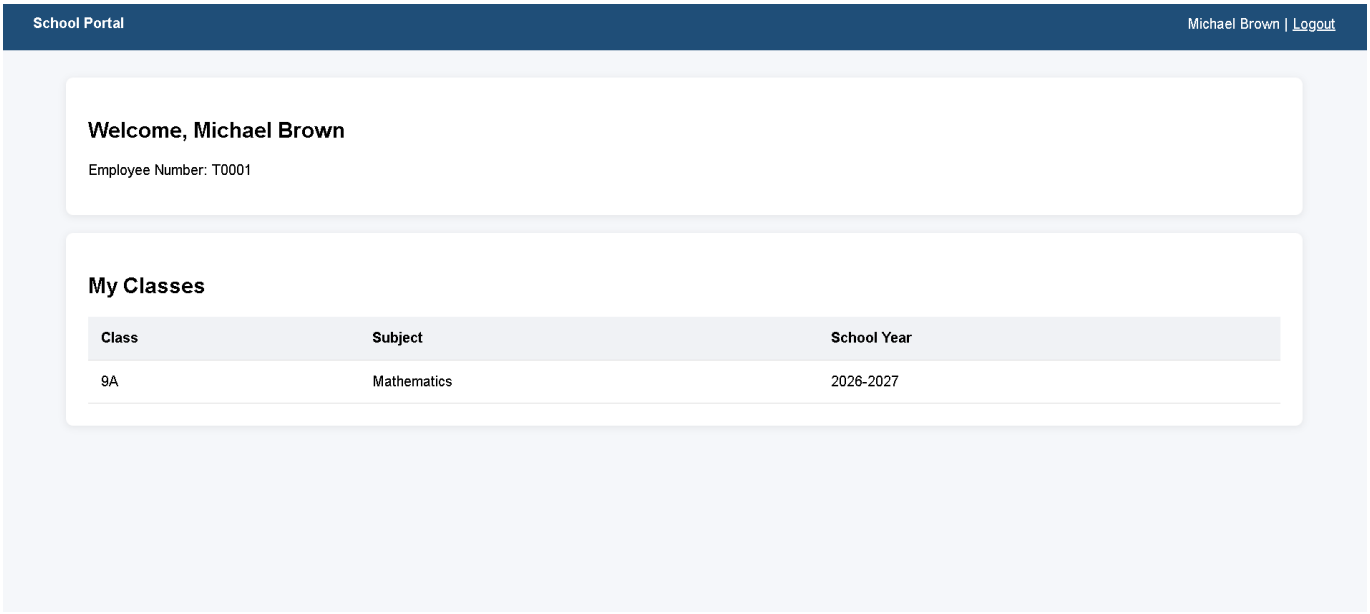

Student direct page: http://127.0.0.1:8000/student/dashboard/

3. Teacher Quick Guide

Visual 3 - Complete teacher workflow.

3.1 Teacher Dashboard

Visual 4 - Real teacher dashboard from the portal.

1

Confirm your name

Check that the dashboard shows the correct teacher account.

2

Find My Classes

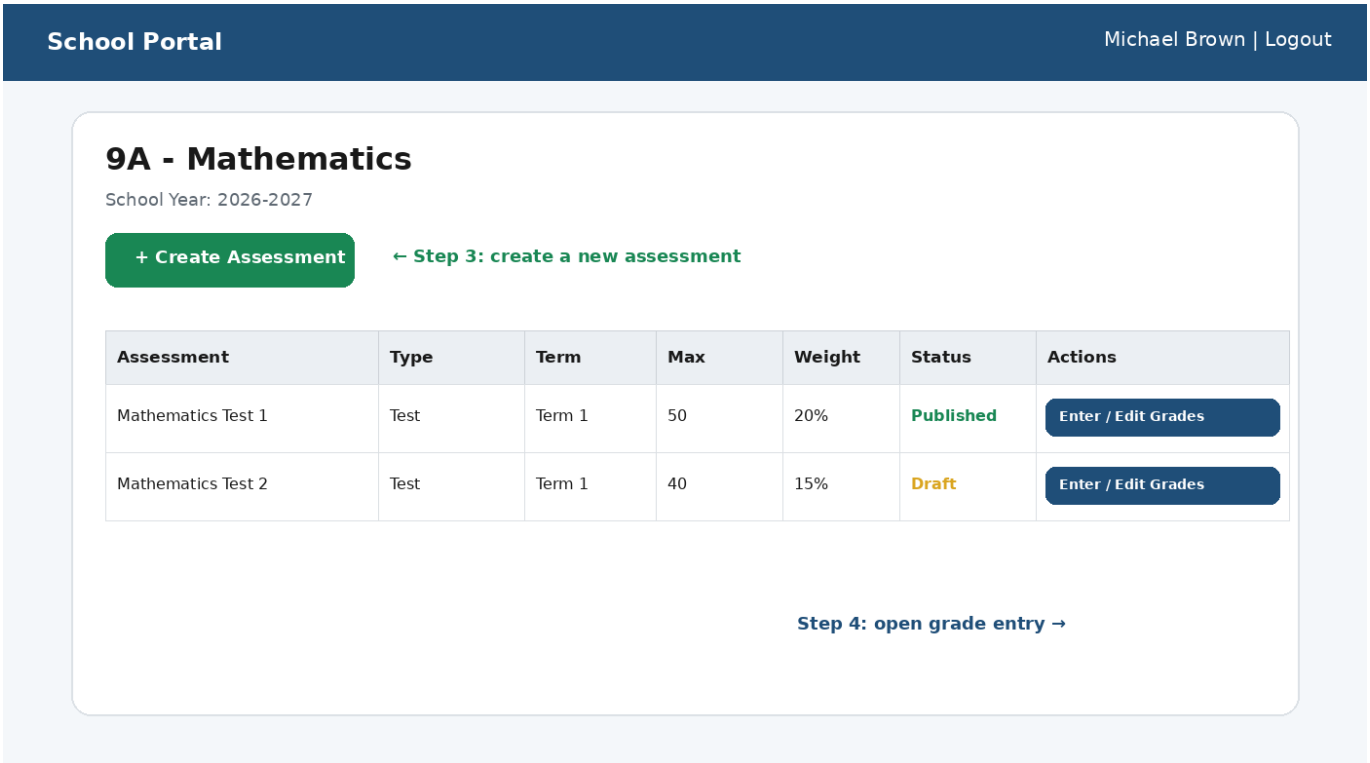

Locate the class and subject you are assigned to teach.

3

Open the class

Click the class/subject link, such as 9A - Mathematics.

3.2 Teacher Class Page

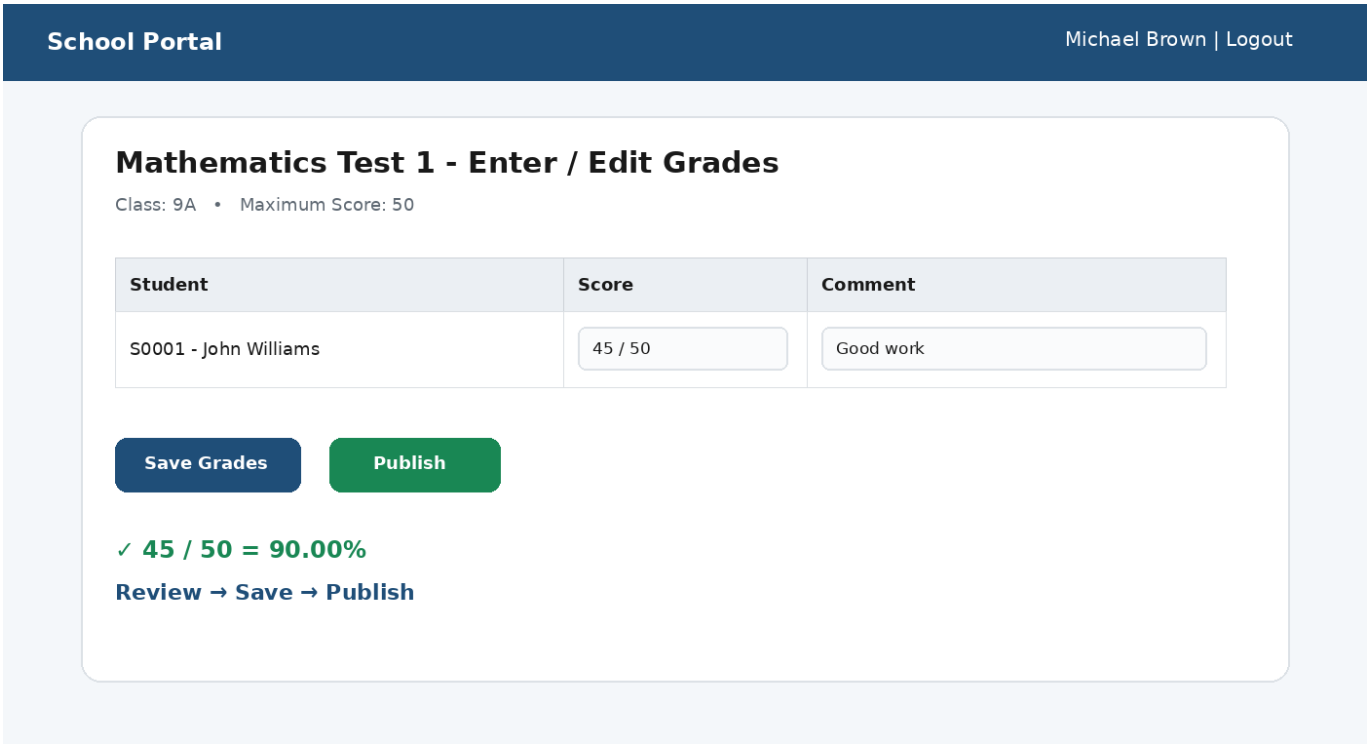

Visual 5 - Example class page showing Create Assessment and Enter/Edit Grades.

1	**Create an assessment** Click + Create Assessment.
2	**Complete the form** Enter title, assessment type, term, maximum score, weight and assessment date.
3	**Save** The assessment appears in the class assessment list.
4	**Open grade entry** Click Enter / Edit Grades beside the assessment.

Example assessment: Mathematics Test 2 | Test | Term 1 | Maximum 40 | Weight 15%

3.3 Enter Grades and Publish

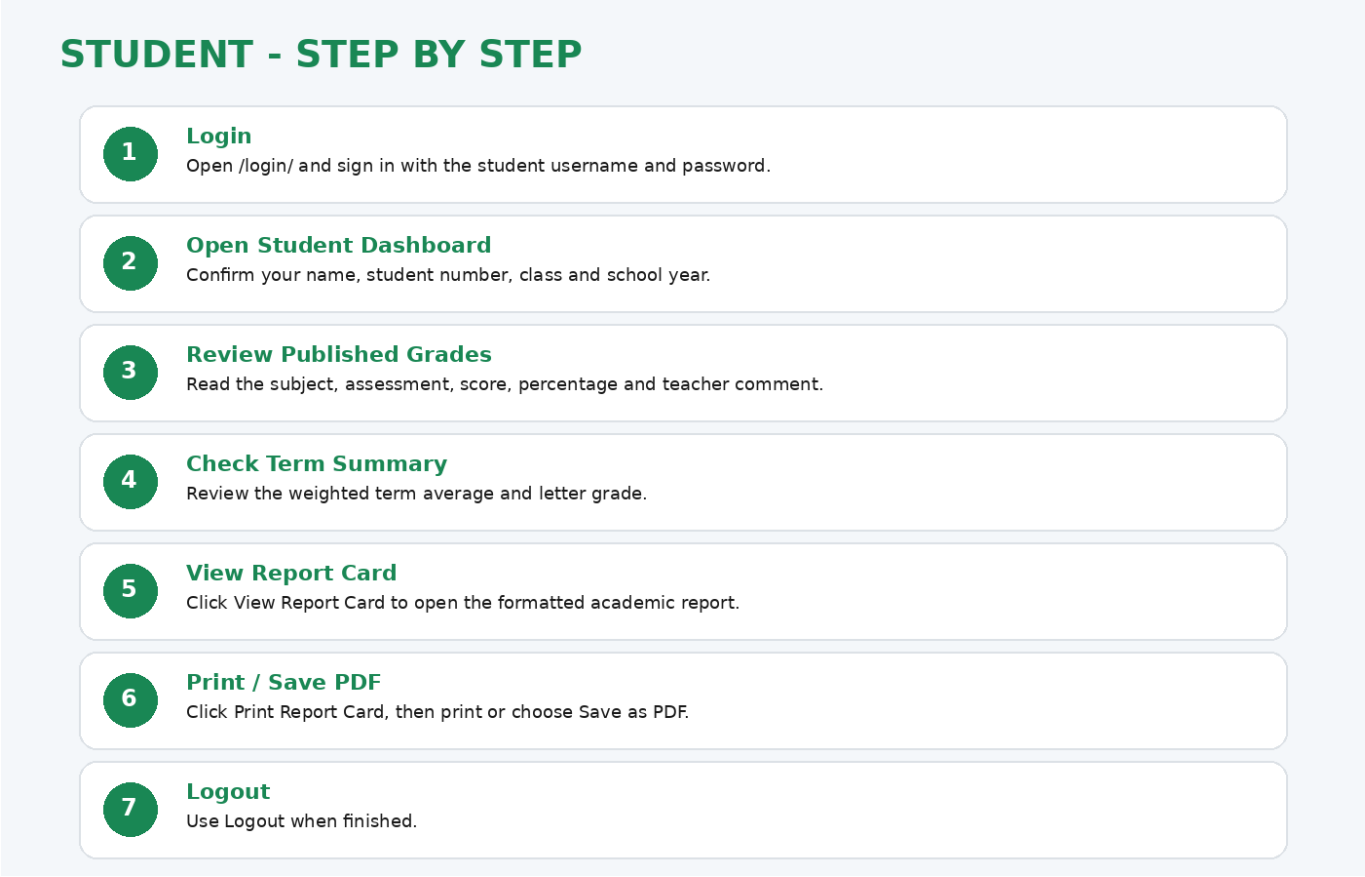

Visual 6 - Example grade-entry screen.

1	**Enter each score** Type the score beside the correct student.
2	**Add a comment** Enter a short comment if required.
3	**Save Grades** Save the scores and confirm the success message.
4	**Review results** Check the calculated percentage and make sure all scores are correct.
5	**Publish** Click Publish only when the grades are ready for students.
6	**Correct mistakes** If needed, Unpublish, edit the score, save, and publish again.

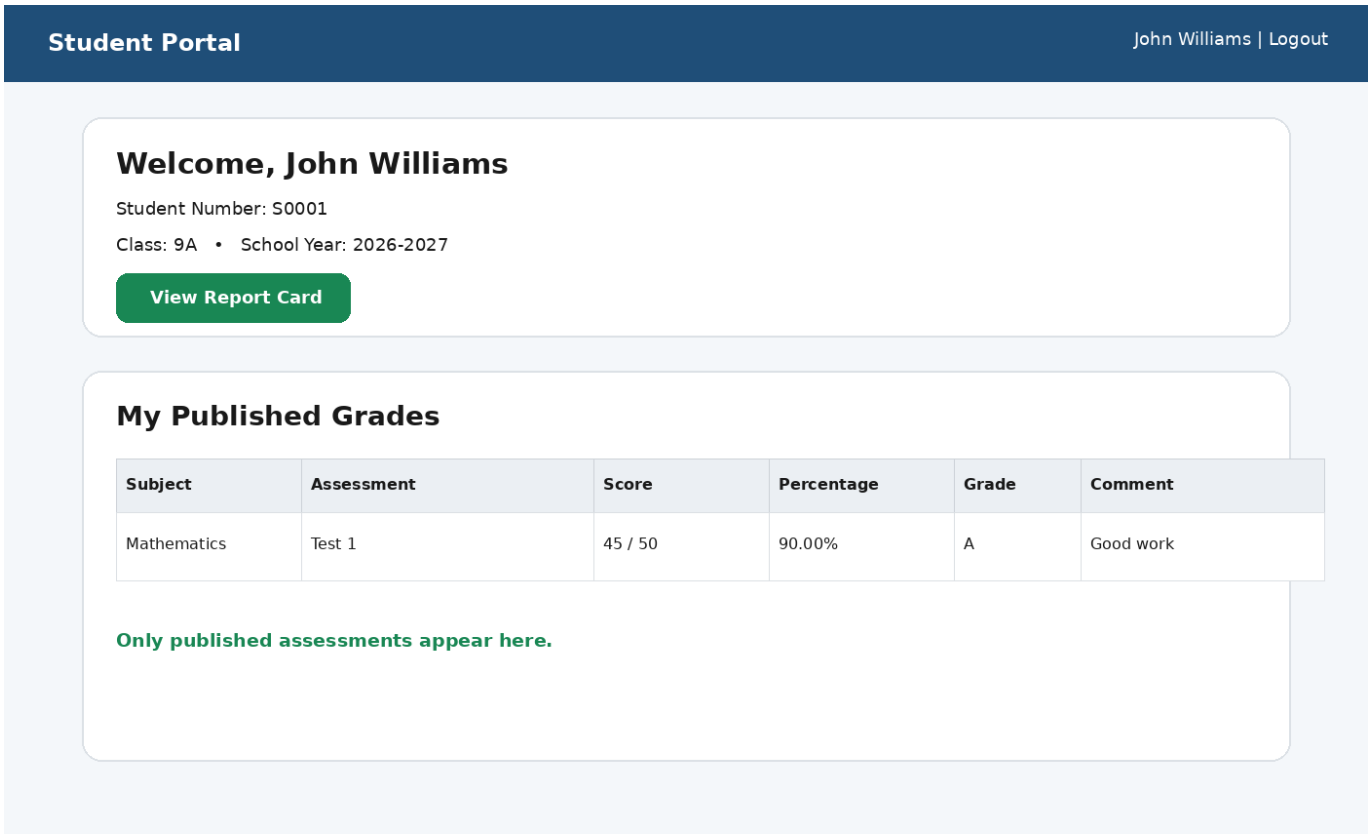

Important: Draft/unpublished assessments should not appear to students. Publishing is the teacher's final visibility control.

4. Student Quick Guide

Visual 7 - Complete student workflow.

4.1 Student Dashboard

Visual 8 - Example student dashboard.

1

Confirm your information
Check your name, student number, class and school year.

2

Read published grades
Review the subject, assessment, score, percentage, grade and comment.

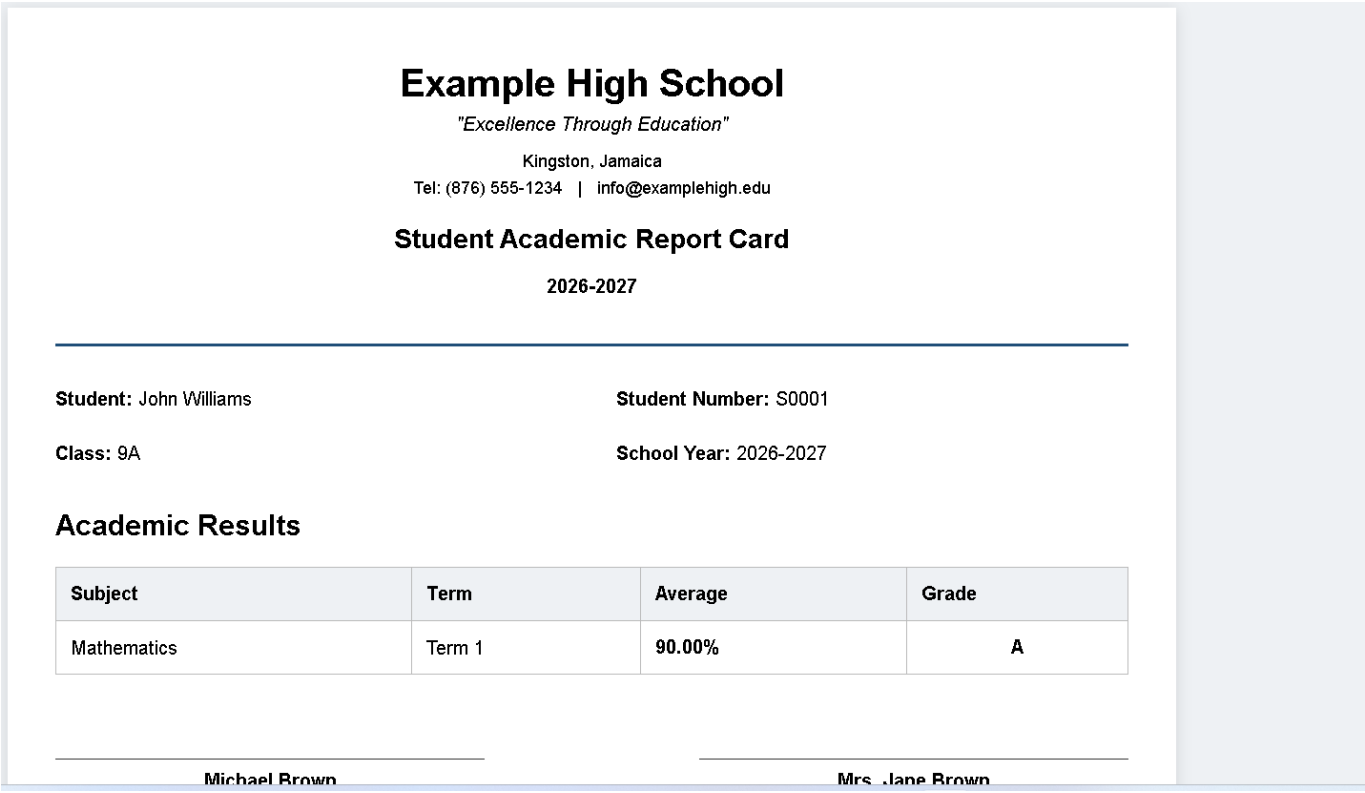

3

Check the term summary
Use the calculated average and letter grade to monitor performance.

4

Open View Report Card
Click the green View Report Card button.

4.2 View and Print the Report Card

Example High School

"Excellence Through Education"

Kingston, Jamaica

Tel: (876) 555-1234 | info@examplehigh.edu

Student Academic Report Card

2026-2027

Student: John Williams

Student Number: S0001

Class: 9A

School Year: 2026-2027

Academic Results

Subject	Term	Average	Grade
Mathematics	Term 1	**90.00%**	**A**

Michael Brown

Mrs. Jane Brown

Visual 9 - Real report card using the configured school profile.

1

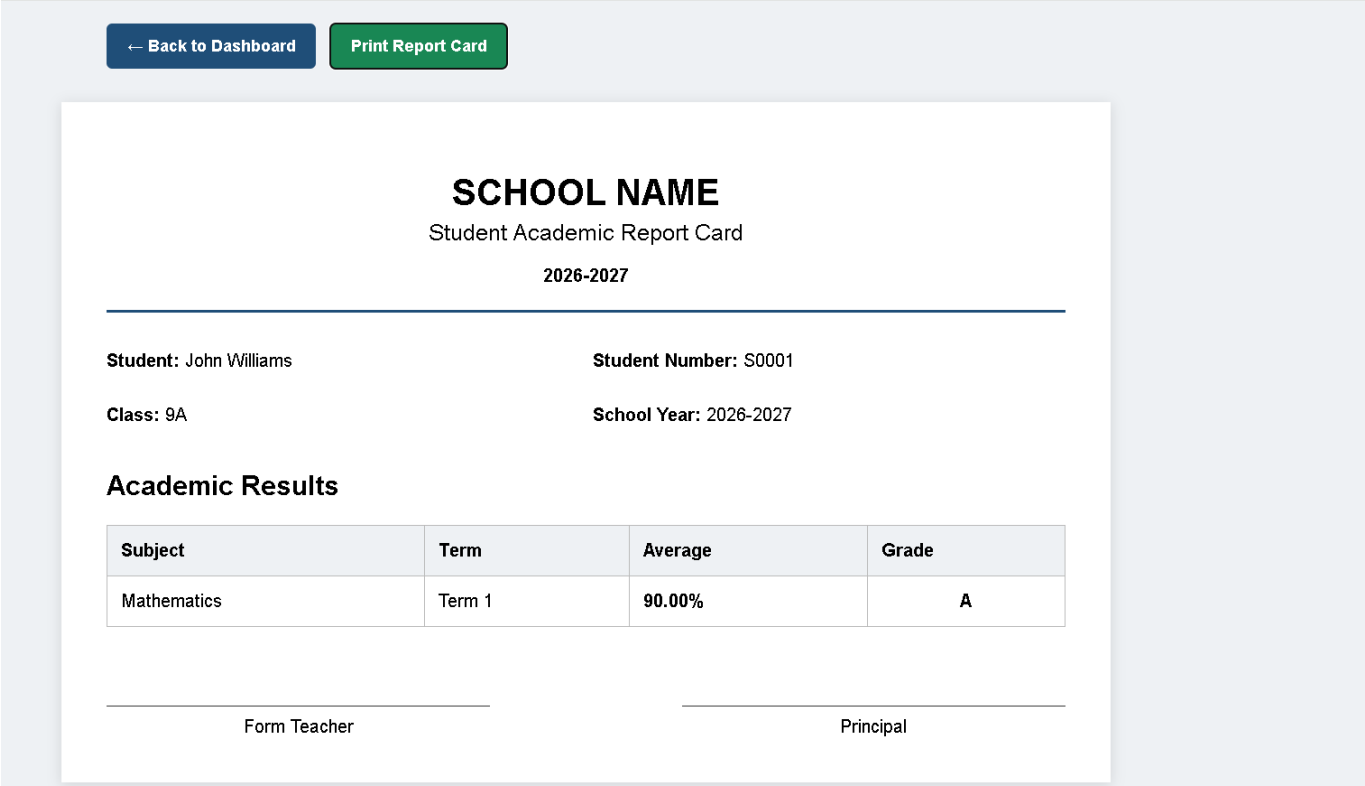

Check your report

Verify your name, student number, class, school year and academic results.

2

Review the subject result

The example shows Mathematics with a 90.00% average and Grade A.

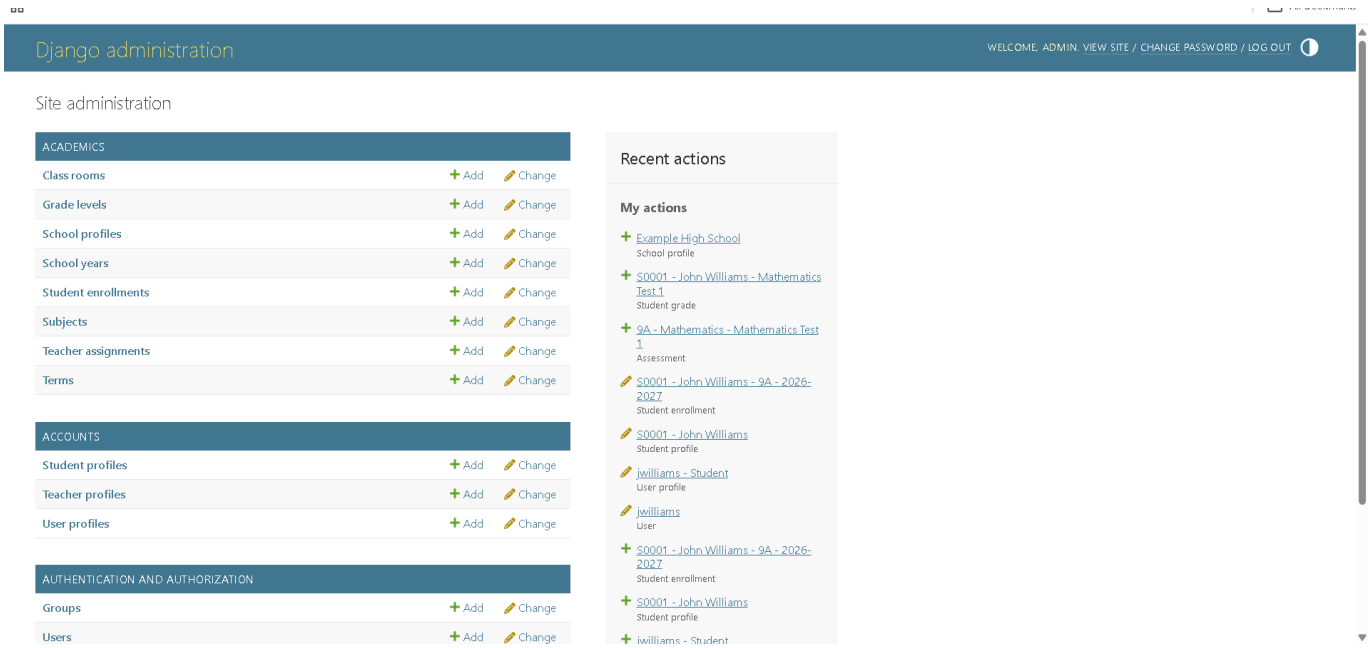

Visual 10 - Report-card controls.

3 **Print Report Card**
Click Print Report Card.

4 **Print or save**
In the browser print window, choose a printer or Save as PDF.

5 **Return to dashboard**
Use Back to Dashboard when finished.

5. Administrator Setup - Visual Reference

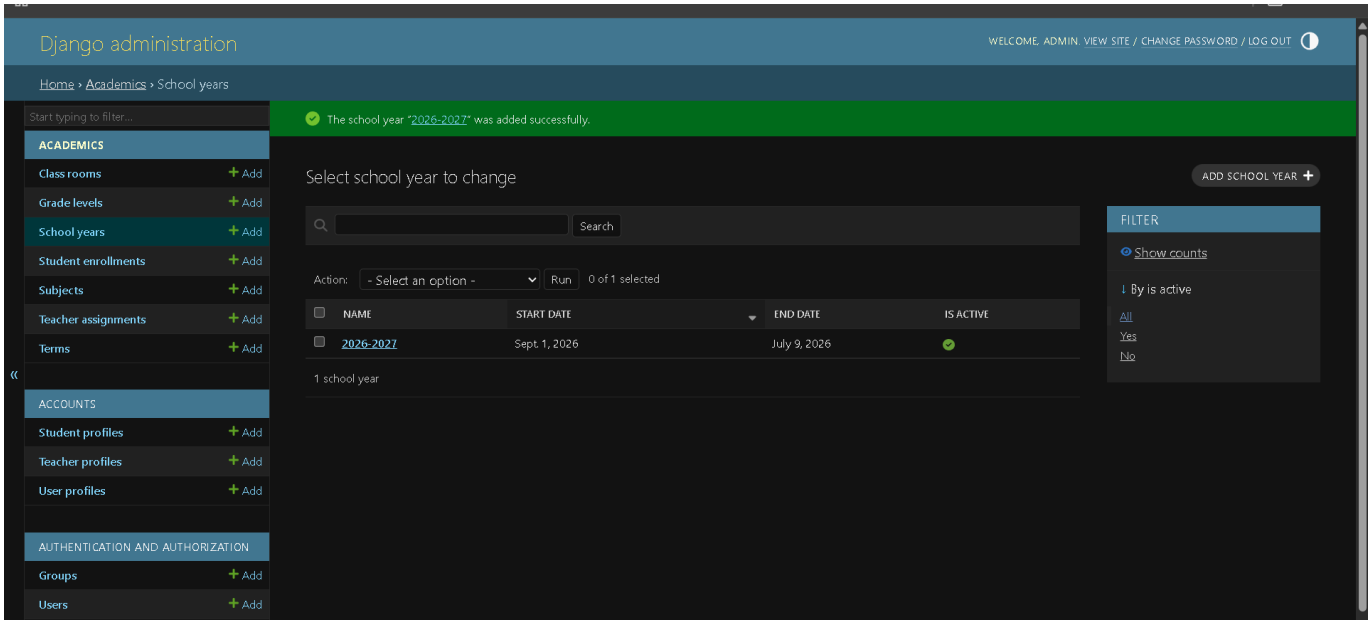

Visual 11 - Administration page showing Academic and Account setup areas.

Administrators prepare the records teachers and students depend on.

1	**School Profile** Enter school name, motto, address, contact details, principal and logo.
2	**School Year** Create the correct academic year and set its dates.
3	**Terms** Create Term 1, Term 2 and Term 3. Mark only the current term active.
4	**Classes and Subjects** Create grade levels, classrooms and subjects.
5	**Users and Profiles** Create teacher and student accounts and role profiles.
6	**Enrollments** Enroll each student in the correct class and school year.

7	**Teacher Assignments** Assign the teacher to the correct class, subject and school year.

5.1 School Year Example

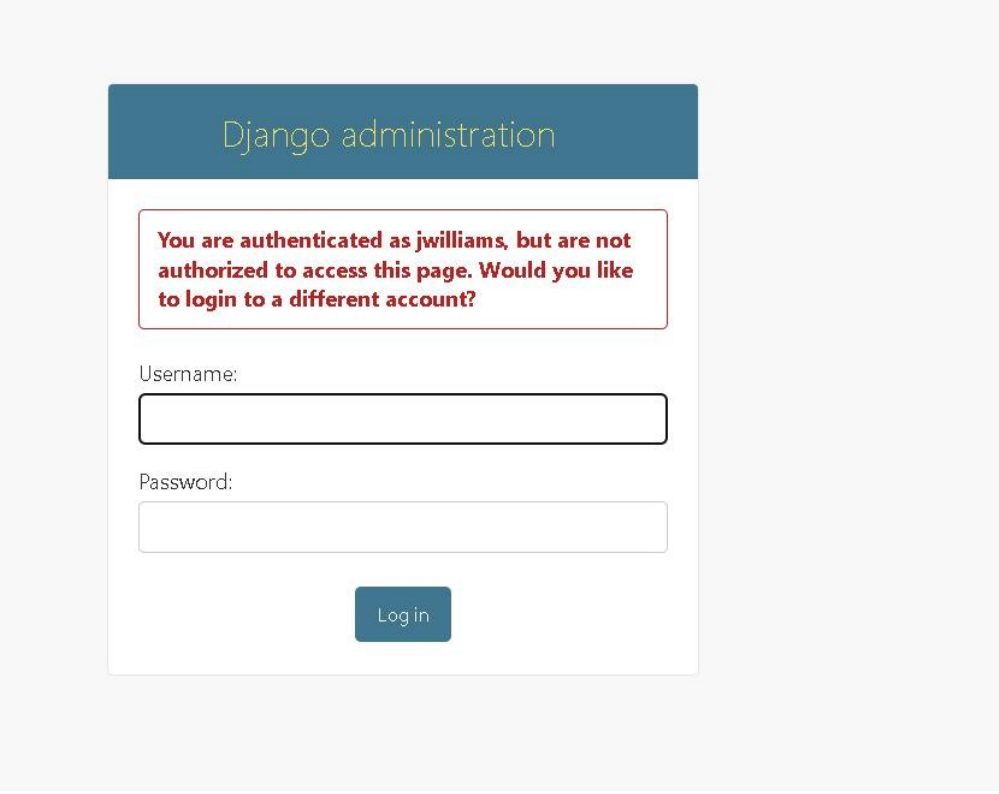

Visual 12 - Example school year record in Django Administration.

Suggested setup order: School Profile → School Year → Terms → Grade Levels → Classrooms → Subjects → Users/Profiles → Student Enrollments → Teacher Assignments

6. Troubleshooting - What Should I Do?

What you see	Most likely reason	Action
Cannot login	Wrong username/password	Retry carefully or ask administrator to reset the account.
Teacher sees no class	Teacher assignment missing/inactive	Administrator checks Teacher Assignments.
Student sees no grade	Assessment is draft/unpublished or no grade exists	Teacher checks score and Publish status.
View Report Card missing	Student enrollment/view template issue	Confirm active enrollment and use the Student Dashboard.
Admin says not authorized	You are logged in with a student/teacher account	Logout and use an authorized admin account.
Report card school details missing	School Profile incomplete	Administrator updates School Profiles.

Visual 13 - Example: a student account is not authorized to access Django Administration.

7. One-Page Quick Reference

Teacher

- 1. Open /login/
- 2. Sign in as teacher
- 3. Open My Classes
- 4. Open class/subject
- 5. Create assessment
- 6. Enter/Edit grades
- 7. Save
- 8. Publish
- 9. Logout

Student

- 1. Open /login/
- 2. Sign in as student
- 3. Review Published Grades
- 4. Check Term Summary
- 5. Click View Report Card
- 6. Print or Save PDF
- 7. Logout

Remember: Teacher and student start from the SAME login link. The username/password determines which dashboard opens.
